Brentwood Park Planning Map
NOTES
No individual project can go forward without its own approval process. To occur, a project must have demonstrated neighborhood support (through public meetings, volunteer efforts, and fund raising) and approval from Austin Parks and Recreation.
The Brentwood Park master plan is expected to evolve over time with updates made approximately every 5-10 years to reflect the impact of completed improvements and the changing nature of the community.

Tue, Aug 30, 2011 at 7:09 AM	4: I like this one because I'm not wild about the dog park idea and would rather develop the park for a broader range of users.
Tue, Aug 30, 2011 at 1:08 PM	I like plans 1 or 4. All of these maps show that there will be a bench next to the granite trail that if you are sitting there and turn around, you'll be looking straight into my living room. How can I influence the location of the benches to ensure we keep our privacy?
Tue, Aug 30, 2011 at 1:09 PM	Can't see #3 (except in thumbnail size), but I think removing the kiddie pool is a bad idea. The fenced in doggie area addresses dog owner needs with a eye towards safety. Thanks for all your hard work.
Tue, Aug 30, 2011 at 1:55 PM	It is unclear to me if only the UNfenced dog area is not permitted by PARD. I would prefer version #3 with a fenced area for dogs to mingle and play fetch, if this is allowable by PARD. The dog area from version #2 is preferable, since it is long enough to allow (possibly) realistic-distance fetching.
Tue, Aug 30, 2011 at 2:18 PM	I really love the idea of including a Wall of Welcome mosiac in the park. Would love to see that in plan 4. Thank you for all this work to make Brentwood Park even better!
Tue, Aug 30, 2011 at 2:34 PM	I don't see any reason to remove the kiddie pool and add a splash pad. But if there's a rationale I don't mind hearing it.
Tue, Aug 30, 2011 at 3:37 PM	Positives.Would love a fenced dog area. #2, #3. Would love a garden area. #1. Love expanded pool area. #2. Crushed Granite trails. Drinking Fountains. More landscaping/trees #3,4. Fenced toddler area. #2. Negatives: As a resident of Justin Lane with my backyard on Brentwood Park, really dislike the idea of benches that close to the houses. The benches tend to attract loud cell phone talkers and making out teenagers at odd hours and it is very invasive to the backyard. Don't like the idea of a splash pad far from the pool #2,3,4.
Tue, Aug 30, 2011 at 3:40 PM	Map #3, but with the pavilion and splash pad omitted.
Tue, Aug 30, 2011 at 3:44 PM	I chose #3 based on the combination of trees, walls of welcome, and the splash pad. The one item not included that I support strongly is the expanded pool area. I also, one day, hope we can get some nice public art/sculptures in the park -- in Nashville a park near our house used tile mosaic a la Gaudi style. Anyhow, good work planning... let's do this.
Tue, Aug 30, 2011 at 4:46 PM	#4, but I like the splash pad partially covered or close to a pavilion. Features I like best: 1.Crushed granite trail around perimeter of park 2. Splash pad in addition to keeping kiddy wading pool 3. Pavilion by play scape 4. Picnic benches inside fenced Brentwood pool
Tue, Aug 30, 2011 at 5:36 PM	Like the loop trail and expanding the pool area w/picnic tables. Love the current kiddie pool and fountain. What's a splash pad?
Tue, Aug 30, 2011 at 6:01 PM	Love the idea of Brentwood pool's fence being expanded and the dog park among other things. But I also loved the garden area in #1 and all the trees and murals in #3. Those little additions would be the perfect park!!
Tue, Aug 30, 2011 at 9:25 PM	I wish Map 4 included (from Map 2) "expand pool fence to include picnic tables," or at least dry, shaded sitting areas.
Tue, Aug 30, 2011 at 9:43 PM	I like #3 for the splash pad near the pavillion. I also like the continuous trail featured in Map #1 and the expansion of the pool fence to include more "hang out" space and/or picnic tables. The pool gets so crowded, it would be nice to have space for non-swimming kids and adults to sit a safe distance from their swimming children and observe. I like the landscaped berm in the northeast corner of the park. I do wonder if the mini gardens are sustainable, or if more money/effort should go into to the existing entrance garden and the proposed entrance garden. You guys are AWESOME to do all of this for the neighborhood! Thank you so much! Ann and Juan on Morrow.

Tue, Aug 30, 2011 at 11:18 PM	I'm in favor of bike racks near the pool and benches near the basketball and tennis courts. I like the idea of expanding the pool area to include the oak on the north side, but I think that area is used too much during the rest of the year to make that feasible. Thanks for all your effort on this!
Wed, Aug 31, 2011 at 2:39 AM	4 - dont want dedicated dog area. be sure new trees don't grow to overlap and get in the way of tennis courts. don't think trail is really necessary.
Wed, Aug 31, 2011 at 6:33 AM	Ok so a fenced dog park is against current policy. How bout we change that policy. Dog owners use the park all the time
Wed, Aug 31, 2011 at 7:10 AM	#4 - In order to provide shade and easy parental supervision, I recommend having the splash pad and pavilion closer together as in Map #3. Thanks for all of your hard work.
Wed, Aug 31, 2011 at 7:16 AM	I like the complete trail around the park. The garden/wall are in a good spot. Do not want any fenced-in dog areas. Would like to see pool area extended as in #2. Splash pads are expensive to maintain, so I would avoid those. Bike racks should not be on perimeter of park; instead they should be located close to the activity points (pool, playground, basketball court, and tennis court).
Wed, Aug 31, 2011 at 7:50 AM	I like 4 for as couple of reasons. I had actually picked it before I read that you guys call it a "best of". If we are are going to go with the splash pad idea I don't think it needs to be as close to the pavilion as 2 and 3 had it. However, it's too bad that we have to loose the kiddy pool to get the splash pad. I wish we could have both. Also, I don't think we need fenced in dog and toddler areas. I've been to that one over by the Crestview station and they feel a little unnatural. I think people are going to do what they want to anyway. I like the way 4 kept the open space and I like the landscaping ideas with 4. It seems to have better flexibiliy. Thanks for all of your work on this!
Wed, Aug 31, 2011 at 8:17 AM	I like the water fountain by the playscape, that would be a really nice improvement! My other favorite things about #4 are: landscape berm by playscape, splash pad (since the kiddie pool is likely to be closed anyway), and more shade!! thanks for doing this.
Wed, Aug 31, 2011 at 8:34 AM	I like the mini gardens and the added berm by the playground. The expansion of picnic space at the poool is a much needed space. I do not think a splash pad outside the pool area is necessary or hygenic. I think a splash pad in place of the kiddie pool is a great idea.
Wed, Aug 31, 2011 at 8:39 AM	I like #2, but WITHOUT THE DOG AREA.
Wed, Aug 31, 2011 at 8:49 AM	I chose #1 for the crushed granite trail that would surround three sides of the park, the Wall of Welcome, and the pavilion. Those are the features I would appreciate most. I think #4 looks great also, and perhaps better than #1 on account of all the trees! But I'm not a huge fan of the splash pad idea. and I'm not sure about "themed mini gardens." :) I don't mind splash pads and I would still use the park if one were there, but it doesn't seem like a feature that would be enjoyed by the most neighbors. It also seems like it would change the feel of the park? more loud and noisy and lots of children and cars instead of a more quiet, relaxing feel with people walking there? just thoughts...
Wed, Aug 31, 2011 at 9:02 AM	I like #4 because I love the pavillion and splash pad, but I would prefer to keep the kiddie pool also.
Wed, Aug 31, 2011 at 10:17 AM	Map #4 includes the features that I think would be of the greatest benefit to park visitors and the surrounding neighborhood. GREAT job to all who helped process the survey results into specific plans and maps.
Wed, Aug 31, 2011 at 10:59 AM	Love the smaller mini gardens. LOVE the splash pads and replacing the toddler pool is a smart move. Having a second splash pad is great and allows kids to cool off while they play and when the pool is not open. Although I like the dog park idea in the other versions, I think its doggie enough. Dog drinking stations and poop bag stations should do the trick.
Wed, Aug 31, 2011 at 1:49 PM	I don't think we need the splash pad or if you want to replace the kiddie pool with it maybe you should put it over by the pool. I also donlt want a dog park there and would like more signs about cleaning up after your dog.

Wed, Aug 31, 2011 at 2:21 PM	I like #2 the best as I think a splash pad is great for the neighborhood AND the fact that the pool area will expand to include picnic tables with more room for seating. Keep up the great work!
Wed, Aug 31, 2011 at 3:37 PM	Voted for 1; enjoy the nature/garden park at NE- beautiful entry and visual 'marker' to drivers. Overall, berm at playscape is an excellent idea. Would love to see the picnic tables of idea 2. Have general concerns about pool and/or splash pad that would probably best be hashed out during individual review as that 'phase' of work moves through planning and development.
Wed, Aug 31, 2011 at 5:22 PM	1-4. I've noticed that the Brentwood Park sign still says "Arroyo Seca" instead of "Arroyo Seco." The street's name was changed many years ago.
Thu, Sep 1, 2011 at 9:49 AM	#1 mostly because of the large area for a garden trail. But I would also LOVE a fenced toddler play area, and a splash pad would be a cool bonus.
Fri, Sep 2, 2011 at 1:18 PM	I chose #4, but like that #2 expands the boundaries of the swimming pool. I wasn't sure if this was compensated for in #4 by the removal of the kiddie pool (which should happen ONLY if we get a splash pad to replace it), but in any event, the pool area needs to be enlarged.
Tue, Sep 6, 2011 at 5:27 PM	Existing Playscape could really use to be upgraded. Its too young for children much older than 3.
Fri, Sep 9, 2011 at 11:04 AM	#4: I like the larger green area on Mp1; the light from Map2 and more benches/picnic tables scattered about. wish it could be a bigger dog park; but that would be so little; dogs that size can use their back yards i think it would be a waste of space.
Fri, Sep 9, 2011 at 1:14 PM	2 - really like the idea of fenced in toddler area (very important for our family and the new splash pad.
Sat, Sep 10, 2011 at 1:20 PM	I do NOT want any type of dog park used as part of our precious and small park. Austin has already let too many beautiful park areas literally go to the dogs... areas free of dog poop and obnoxious dogs are getting harder and harder to find. We need people space.
Sun, Sep 11, 2011 at 2:38 PM	Love the track around the park that connects with the sidewalk on Arroya Seca. I am all for having a dog park, but that small area on #2 and #3 doesn't give the dogs enough room to run and play.
Mon, Sep 12, 2011 at 9:16 AM	4, but with another Wall of Welcome-style mural or two. They are such a powerful unifying force in the neighborhood. Thanks for all your work on this process!
Wed, Sep 14, 2011 at 10:25 PM	#1 with a dog park and without the pavilion.
Fri, Sep 16, 2011 at 8:40 AM	#4 is best but should add the flower/sculpture garden to it. Do NOT add a dog park to Brentwood Park. It's gonna be a big mess and I would be mad if I lived right next to that.
Sat, Sep 17, 2011 at 1:56 PM	#4 Would love to see all of this and more!! Thanks for working on it for all of us.
Sat, Sep 17, 2011 at 7:41 PM	I voted for #4, but did wonder if two splash pads (one at the pool, one at the pavilion) would be needed. Maybe conceptually keep both for now with the idea that only one will be implemented?
Sat, Sep 17, 2011 at 9:33 PM	Our family chose plan #4. A couple of notes/questions: 1) We didn't notice any covered/shade areas around the proposed splash pad (the one near the swings)....any trees or anything planned in that area? 2) Looks like the proposed pavilion would be right around the existing sandbox....would there still be a sandbox? Just asking b/c the lack of shade/cover over the existing sandbox has been one of our biggest complaints about the park over the years. Good work!
